Dear Mr. Luke,

Just wanted to say thank you for the meeting tonight. We think you are a wonderful teacher & we are glad you are our son's Math teacher.

You could have been home tonight, you could have been relaxing after the long day trying to teach the children but you didn't. You wanted us to help you, to support your efforts, and show our kids that education matters. Thank you for that.

We had our own meeting with our son afterward and he just taught us P.E.M.D.A.S, that was cool.

We hope for a turnaround in the chattiness and a focused approach to each lesson. We were not offended by any statement you made; we are a lazy, self-indulging, spoiled, and ungrateful society. We can change that.

Thank you!
Lisa & Chad
