To Who It May Concern

I am writing this letter of recommendation on behalf of Mr. Frank Luke, a former teacher at Rockledge High School, Brevard County, Florida. Mr. Luke was hired in January, 2012 to teach Career Business Mathematics and was an effective instructor of Mathematics. During the 2012-13 school year a Physics position became available and Mr. Luke transitioned and effectively took over these classes. He maintained a standard of excellence in his classroom, job performance and responsibilities. He believed that all of his students could achieve and he was always willing to stay after school many hours to tutor and motivate his students to obtain their goal of success in the fields of math and science.

As Mr. Luke's assigned administrator and evaluator, I had the opportunity to see firsthand his abilities in the classroom and when given feedback; he readily accepted it and would strive to take corrective action. One of Mr. Luke's strengths is how he reaches out into the local community and invites city leaders to share with his students the importance of the knowledge of Mathematics and Science. He also brought the Florida Today Newspaper to observe Student-led-Learning-and-Teaching in his classroom. An interesting approach of teaching and learning; Florida Today published an article on this activity.

Mr. Luke conducted student-parent conferences with knowledge of his students' accomplishments, abilities, with integrity and a willingness to assist his students' and resolve any parent concerns or issues.

Mr. Luke is a person of great self-confidence and disciplines. His classroom management style is evident; he is an instructor who teaches from bell to bell.

I would not hesitate to employ Mr. Luke again.

Yours truly,

A handwritten signature in black ink, appearing to read "Loretta E. Bosley". The signature is fluid and cursive, with a large initial "L" and "B".
