Subject: Hello Mr. Luke

I wanted to inform you that I think you are doing a wonderful job teaching your students in Algebra II. Your devotion and dedication to your students is very apparent by the fact that you always are available to assist your students be it early in the morning or late afternoon or even on a Sunday morning. I feel you save a lot of time by having the day's lesson printed for the students as they enter the classroom. It is most effective when we review some of the homework to reinforce the previous day's lesson. The opportunity you give the students to teach a lesson is very effective in motivating the students to succeed. I enjoy being in your class . Morah Mimi
